

For Immediate Release

CLYDE & CO LLP SELECTS EPIQ SYSTEMS AND TRILANTIC AS PREFERRED PROVIDERS OF ELECTRONIC DISCLOSURE SERVICES

...Faster, easier and accurate data review tools for Clyde & Co LLP lawyers and clients...

Tuesday 12 May 2009 - Clyde & Co LLP, a leading International litigation law firm, announced today that following an extensive market review they have selected two leading electronic disclosure specialists Epiq Systems and TRILANTIC as preferred providers of electronic disclosure services. E-Disclosure (also known as e-Discovery) is the process of finding, securing and providing electronic data with the intent of using it as evidence.

Epiq Systems and TRILANTIC will both provide Clyde & Co with specialist electronic disclosure services encompassing electronic data collection, document processing, scanning and coding, review, courtroom presentation, and technical support.

Kevin Butterill, Litigation Support Manager, Clyde & Co, commented: "The exponential growth in electronically stored documents means that our lawyers are faced with new challenges in effectively managing data-rich cases for clients. Epiq Systems and TRILANTIC both have strong proven track records in delivering high quality e-Disclosure support. This specialist support means that our lawyers can focus on providing cost effective and timely legal counsel."

Mike Brown, International Sales Director, Epiq Systems adds: "We are extremely pleased to have been chosen as a preferred supplier. Modern discovery technologies can significantly reduce the size and timeframe for manual review – and lawyers who best understand the issues and processes of e-Disclosure will gain significant advantages over legal firms that don't. Epiq Systems, with its powerful review system, DocuMatrix, is ideally positioned to offer Clyde & Co with a combination of technical, project management and legal understanding to deliver the right output at the right time."

“We are delighted to be named as a preferred provider of e-Disclosure for Clyde & Co LLP, signaling our close relationship and commitment to providing the best service possible. TRILANTIC’s unique technical expertise, experience and dedication to delivering specific solutions to the unique challenges of each case are unparalleled in this industry” commented Nigel Murray, Managing Director, TRILANTIC.

Kevin Butterill adds: “Our legal teams operate in no fewer than 17 jurisdictions in over 37 languages, so having the ability to process and review multi-lingual data in a fast and accurate manner will ensure that we give our client the best possible service.”

About Epiq Systems

Epiq Systems is a leading provider of integrated technology solutions for the legal profession, enabling clients to streamline the administration of bankruptcy, litigation, financial transactions and regulatory compliance matters. It offers innovative technology solutions for electronic discovery, document review, legal notification, claims administration and controlled disbursement. Epiq's clients include leading law firms, corporate legal departments, bankruptcy trustees and other professional advisors who require innovative technology, responsive service and deep subject-matter expertise.

Epiq Systems Limited (UK division of Epiq Systems Inc.) works with 4 out of 5 of the magic circle – and at a global level with 48 of the top Global 50 law firms. Epiq Systems was also recognised as a “Top 5 provider” for processing and review by the 2008 Socha-Gelbmann Annual electronic Discover survey. For further information visit www.epiqsystems.com

About TRILANTIC

TRILANTIC is a European-based legal support services company offering traditional and eDocument management services for all stages of any matter. Services encompass all aspects of electronic disclosure and include data collection, electronic document processing, scanning and coding, review, printing, courtroom presentation, online deal and data-room services, and technical support. TRILANTIC has recently introduced a proportionate pricing model with fixed, low and easily understood pricing for those early

stages of a case where the volumes are low and for matters with small to medium document volumes.

TRILANTIC was named a Top Electronic Discovery Service Provider - Law Firm Rankings, by the highly respected and comprehensive 2008 Socha-Gelbmann Electronic Discovery Survey Report. TRILANTIC was the only EU-based provider to make the list of top 20 providers in both the 2007 and 2008 surveys. They also received the Highly Commended mention as Electronic Disclosure Support/Service Provider of the Year at the fourth annual British Legal Technology Awards.
