## Litigation support news

### **Trilantic add eDoc Review to service menu**

Nigel Murray's start-up e-disclosure business Trilantic (020 7042 1000) has added 'eDoc Review' to its list of service offerings. The service is intended to deliver cost and time savings over traditional document review and printing methods by extracting key information from emails and electronic documentation, and then entering it into a spreadsheet with hyperlinks to the original materials. Once reviewed, collated and sorted, the user only needs to print the documents of significance.
